## Official Lecture/Field Trip Attendance Record for Professional Development Hours

**Tuesday, April 21, 2020**

The meeting was attended remotely via Zoom computer networking on account of social distancing requirements promulgated by the State of Georgia during the COVID-19 pandemic.

The purpose of this work is to demonstrate the use of Ground Penetrating Radar (GPR) in an underground stone mine and to discuss the importance of karst void detection ahead of mining.

Date of Lecture	Lecture Topic	Sponsor	Speaker	PDH Hours
4/21/20	Ground-Penetrating Radar for Karst Detection in Underground Stone Mines	AGS – No Sponsor	Amin Abbasi Baghbadorani PhD Candidate Virginia Polytechnic Institute and State University	1
